Dear owner/occupier

CARRIAGEWAY DRAINAGE WORKS - INFORMATION NOTE: A508 Harborough Road, Maidwell

I write to inform you that Northamptonshire Highways are planning to carry out highway improvement works on the A508 Harborough Road Maidwell. The work will involve Renewing parts of the existing drainage system, between Old Hall Farm and the A508 Motor Garage.

The scheme is provisionally scheduled to begin in early next year. In total, it is anticipated that it is likely to take up to 4 weeks to complete, (weather permitting and subject to the demands and progress of the overall works programme). Signs will be erected shortly before the works on the A508 Harborough Road informing motorists of exact dates and times, in addition to a letter should be sent to you prior to the scheme commencing by our construction team.

Due to the nature of the works it is necessary to operate two way temporary traffic signals and It may be necessary to operate a weekend road closure to maintain both the safety of the public and work force. As a resident/business you will have limited access to your property during the works. Please speak to our personnel on site should you require any assistance.

During the work, some drivers may wish to allow a little extra time for their journeys and all drivers are asked to reduce their speed to a minimum and take the utmost care in the vicinity of the work. Please think carefully about parking, so as not to obstruct the works, to not get blocked in temporarily, and to not obstruct the heavy plant and delivery trucks.

I would like to ask all residents in the area for their patience, flexibility and co-operation in order to allow the scheme to progress efficiently and I would thank you in anticipation of this.

Some disruption is inevitable. However, I'm sure you would agree that the short term inconvenience will be far outweighed by the long term benefits for all users.

Should you have any queries relating to the project prior to the commencement of the work on site, you may contact Rob Dunmore on 01604 883400. For detailed information relating to the phasing of the works, the progress of the works, access during the work or any other query when the work has started please contact our Construction Team on 01604 883400.
